CONTENTS OF VOLUME 52

Volume 52 No. 1–2 August 1998

R.S. SOKHI / Preface 1

J. KEARY, S.G. JENNINGS, T.C. O'CONNOR, B. MCMANUS and M. LEE / PM_{10} Concentration Measurements in Dublin City 3–18

R.C. BROWN, A. THORPE and M.A. HEMINGWAY / A Passiver Sampler for Monitoring Urban Particulate: Prelimnary Results 19–28

D. MUIR / PM_{10} Particulates in Relation to Other Atmospheric Pollutants 29–42

V.M. BROWN and D.R. CRUMP / Diffusive Sampling of Volatile Organic Compounds in Ambient Air 43–55

M.D. WRIGHT, N.T. PLANT and R.H. BROWN / Diffusive Sampling of VOCs as an Aid to Monitoring Urban Air Quality 57–64

C. KIRBY, A. GREIG and T. DRYE / Temporal and Spatial Variations in Nitrogen Dioxide Concentrations Across an Urban Landscape: Cambridge, UK 65–82

K. HÄMEKOSKI and T. KOSKENTALO / Air Quality and Monitoring Strategy in the Helsinki Metropolitan Area, Finland 83–96

A. CASTELLNOU, N. GONZALEZ-FLESCA and J.O. GRIMALT / On-Site Comparison of Canister and Solid-Sorbent Trap Collection of Highly Volatile Hydrocarbons in Ambient Atmospheres 97–106

G. JONES, N. GONZALEZ-FLESCA, R.S. SOKHI, T. MCDONALD and M. MA / Measurement and Interpretation of Concentrations of Urban Atmospheric Organic Compounds 107–121

I. COLBECK / Nitrogen Dioxide in the Workplace Environment 123–130

V. SIMON, L. DUTAUR, S. BROUARD-DARMAIS, M.L. RIBA and L. TORRES / Biogenic Emissions by Oak Trees Common to Mediterranean Ecosystems 131–139

R.J. HOLDSWORTH and P.A. MARTIN / Near-Infrared Diode Laser Air Monitoring 141–148

G. CLAI, A. KERSCHBAUMER, E. TOSI and S. TIBALDI / Analysis of Urban Atmospheric Pollution Data in the Bologna Area 149–157

C. DELANEY and P. DOWDING / The Relationship between Extreme Nitrogen Oxide (NO_x) Concentrations in Dublin's Atmosphere and Meteorological Conditions 159–172

H. CRABBE and D.M. ELSOM / Air Quality Effectiveness of Traffic Management Schemes: U.K. and European Case Studies 173–183

A.N. SKOULOUDIS, R. BIANCONI and R. BELLASIO / Air Quality Prognosis, for the Implementation of Abatement Strategies over Large Urban Areas 185–201

R. SAN JOSÉ, J. CORTÉS, J.F. PRIETO and R.M. GONZÁLEZ / Accurate Ozone Prognostic Patterns for Madrid Area by Using a High Spatial and Temporal Eulerian Photochemical Model 203–212

E. MURPHY-KLIMOVA, B.E.A. FISHER and R. SOKHI / Treatment of Urban Areas within a Regional Transport Model of Sulphur and Nitrogen Oxides 213–224

G. HART, A. TOMLIN, J. SMITH and M. BERZINS / Muli-Scale Atmospheric Dispersion Modelling by Use of Adaptive Gridding Techniques 225–238

E.D. OBASAJU and A.G. ROBINS / Simulation of Pollution Dispersion Using Small Scale Physical Models - an Assessment of Scaling Options 239–254

A.T. BUCKLAND / Validation of a Street Canyon Model in Two Cities 255–267

A.A. HASSAN and J.M. CROWTHER / A Simple Model of Pollution Concentrations in a Street Canyon 269–280

A.A. HASSAN and J.M. CROWTHER / Modelling of Fluid Flow and Pollutant Dispersion in a Street Canyon 281–297

C.M. N'RIAIN, B. FISHER, C.J. MARTIN and J. LITTLER / Flow Field and pollution Dispersion in a Central London Street 299–314

D.R. MIDDLETON / A New Box Model to Forecast Urban Air Quality: Boxurb 315–335

T. STEBBINGS, K.I. SIMMS and S. GRIMES / The Adequacy of the Execution and Presentation of a Selection of the Recent Air Quality Modelling Assessments within the UK 337–351

Volume 52 No. 3 September 1998

A. THIMONIER / Measurements of Atmospheric Deposition under Forest Canopies: Some Recommendations for Equipment and Sampling Design 353–387

W.C. SIDLE / Environmental Isotopes for Resolution of Hydrology Problems 389–410

R.E.H. SWEENEY, M.D. SCRIMSHAW, G.K. MORSE and J.N. LESTER / Evaluation of Olfactory Sensing in the Water Industry 411–424

L.A. BARTSCH, W.B. RICHARDSON and T.J. NAIMO / Sampling Benthic Macroinvertebrates in a Large Flood-Plain River: Considerations of Study Design, Sample Size, and Cost 425–439

H.G. ZECHMEISTER / Annual Growth of Four Pleurocarpous Moss Species and Their Applicability for Biomonitoring Heavy Metals 441–451

Book Review
D.L. Kreske / *Environmental Impact Statements* (R.E. MUNN) 453–454

Author Index of Volume 52 455

Contents of Volume 52 457–459
